

CUSTOMIZED CHECKLISTS

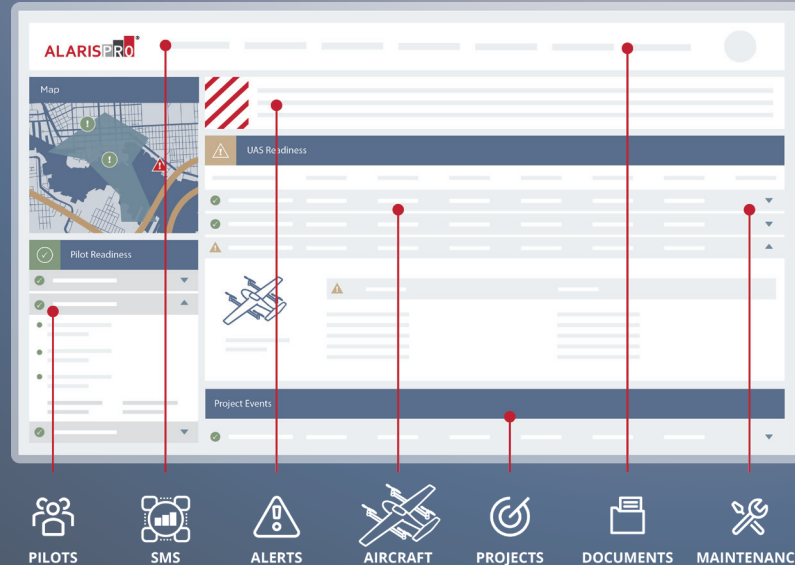

”

Zooz chose AlarisPro to streamline FAA compliance and flight operations. Its powerful tracking of non-serialized parts ensures full component visibility —supporting safety, reliability, and long-term scalability.

Carl Smit, CEO, Zooz

ALARISPRO[®]
Fleet Management Platform

SINGLE SOURCE OF TRUTH FOR UAS FLEET MAINTENANCE AND OPERATIONS

Designed by military aviators and civilian UAS experts, the AlarisPro fleet management platform equips UAS operators, manufacturers, and maintenance professionals around the globe with the critical safety and reliability data needed to reduce risk and optimize their unmanned systems and subsystems.

CUSTOMIZED CHECKLISTS

- Ability to create unlimited custom templates
- Add various field types - Warnings, Cautions, Notes, Text boxes
- Attach multiple checklists to a single Flight and/or Maintenance Log
- Use to standardize company procedures such as Training, HR, and many others
- Add groups to help organize checklists
- Fully integrated with the AlarisPro mobile app to allow "offline" completion of checklists
